LEGAL DISCLAIMER, LIMITATION OF LIABILITY, AND ASSUMPTION OF RISK

ALL CONTENT IS PROVIDED STRICTLY "AS IS," "AS AVAILABLE," AND "WITH ALL FAULTS," WITHOUT WARRANTIES OR GUARANTEES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHERWISE. NO REPRESENTATION OR GUARANTEE OF SAFETY, SECURITY, ACCURACY, RELIABILITY, OR FITNESS FOR ANY PARTICULAR PURPOSE IS MADE. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, ALL WARRANTIES, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND NON-INFRINGEMENT, ARE EXPRESSLY DISCLAIMED.

All software descriptions, security grades, classifications, evaluations, analyses, and audits contained in this repository are provided exclusively for general informational, educational, and research purposes. They are inherently limited, potentially subjective, dependent upon the information and methodologies available at the time of evaluation, and subject to error, omission, modification, and obsolescence. No rating, assessment, or audit constitutes a certification, endorsement, professional security assessment, or representation that any software is safe, secure, lawful, trustworthy, free from vulnerabilities, or suitable for use.

The repository author, owner, maintainers, and contributors (collectively, the "Repository Parties") are independent of, and are not affiliated with, sponsored by, authorized by, or endorsed by the developers, publishers, owners, or distributors of any third-party software referenced herein, unless expressly and specifically disclosed otherwise. References to third-party software do not confer any ownership interest, license, authorization, or endorsement.

ANY ACCESS TO, DOWNLOAD, INSTALLATION, EXECUTION, MODIFICATION, DISTRIBUTION, OR OTHER USE OF SOFTWARE IDENTIFIED OR DISCUSSED IN THIS REPOSITORY IS UNDERTAKEN ENTIRELY AT THE USER'S OWN RISK. Users are solely responsible for conducting independent research, verifying the accuracy of information, evaluating software integrity and security, obtaining appropriate authorizations, complying with applicable laws and third-party license terms, and implementing appropriate technical safeguards. No statement contained in the repository should be relied upon without independent verification.

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE REPOSITORY PARTIES DISCLAIM LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, EXEMPLARY, OR PUNITIVE DAMAGES, LOSSES, COSTS, OR CLAIMS ARISING OUT OF OR RELATING TO THE ACCESS, USE, MISUSE, INTERPRETATION, OR RELIANCE UPON THIS REPOSITORY, ITS SECURITY GRADES, AUDITS, DESCRIPTIONS, LINKS, OR REFERENCED THIRD-PARTY SOFTWARE. This includes, without limitation, data loss, malware infections, unauthorized access, system malfunction, hardware damage, financial losses, service interruptions, compromised information, and other adverse consequences, whether

arising in contract, tort (including ordinary negligence where legally excludable), or any other legal theory, even if advised of the possibility of such damages.

Nothing in this disclaimer excludes or limits liability that cannot lawfully be excluded or limited, including liability for intentional misconduct, gross negligence, or other conduct to the extent protected from exculpation by applicable law, or any non-waivable statutory rights.

The Repository Parties undertake no general obligation to continuously monitor, update, correct, retest, maintain, or independently verify any information or third-party software described herein. Previously published evaluations may become inaccurate without notice. The latest published version of this disclaimer supersedes prior versions as a statement of the Repository Parties' current notices and policies; changes to any existing contractual relationship apply only upon legally effective notice and acceptance where required.

Accessing, viewing, indexing, scraping, or otherwise encountering this repository does not, by itself, necessarily establish contractual assent. Where the Repository Parties present these provisions through a legally effective affirmative acceptance mechanism, the accepting party agrees to be bound by the applicable terms. In all other circumstances, this disclaimer constitutes express notice of the limitations, qualifications, risks, and absence of warranties associated with the repository and its contents.

NO SECURITY GRADE, AUDIT, DESCRIPTION, OR OTHER STATEMENT IN THIS REPOSITORY SHOULD EVER BE TREATED AS A SUBSTITUTE FOR INDEPENDENT VERIFICATION OR PROFESSIONAL SECURITY ASSESSMENT.
